

IT Security Policy

Password and Authentication

All company accounts require multi-factor authentication (MFA). Passwords must be at least 12 characters and rotated every 90 days.

Device Encryption

All company-issued laptops, as covered under the Laptop Policy, must have full-disk encryption enabled before being used to access company systems.

Data Classification

Company data is classified as Public, Internal, Confidential, or Restricted. Confidential and Restricted data must never be stored on personal devices or personal cloud storage.

Incident Reporting

Any suspected security incident, including phishing emails, lost devices, or unauthorized access, must be reported to security@acmecorp.example within 1 hour of discovery.

Acceptable Use

Installation of unapproved third-party software on company devices is prohibited without prior IT approval.
